A CROSSROADS is a place where two or more paths, coming from different origins, intermittently meet, and then extend on alone to their destinations.

The lives of everyone featured in this book have intermittently crossed paths for the school year 1986-87; some more than others.

The challenge is, then, how should these people, all different in origin and eventual destination, be represented?

The 1986-87 yearbook staff sat down in September, and, in thinking about a theme for this yearbook, we talked about how people preserve memories of paths they have traveled.

This book contains post cards, snap shots and other souvenirs of our journeys, both real and fictitious.

They will tell you you can't sleep alone

Then they'll tell you you can't sleep with

Either way is okay you wake up with
